

# Patent Protection & Strategy

Our team comprises  
70+ patent practitioners,  
including Ph.D. Scientists and  
engineers with a wide range  
of technical backgrounds:

- Electrical Engineering
- Computer Science
- Software & AI
- Mechanical Engineering
- Biomedical Engineering
- Chemical Engineering
- Chemistry
- Biochemistry
- Microbiology
- Immunology
- Pharmaceuticals and Immuno-oncology
- Food Science
- Animal Science
- Physics
- Materials Science
- Civil Engineering
- Mathematics
- Applied Optics

We do more than simply  
provide patent support:

-  Technology Licensing & Transactions
-  Venture Capital
-  Startup Formation & Support
-  FDA Regulatory Compliance & Support

## Technology Protection Strategist

Our priority is understanding each client's markets, products, core technologies and business needs. With a collaborative approach, we empower clients to make effective business decisions.
